

Agile Project Management - Advanced (Präsenz)

Reach the next level of agile project work

Projects are rarely executed as originally planned. Therefore, today there is an increasing focus on agility and flexibility - whether they are Software-Projects or not! However, the agile approach alone does not ensure that a project successfully reaches its goal. In this seminar, you'll receive tips and tricks from experienced experts who will show you how to pragmatically execute agile projects and avoid typical pitfalls.

Content

Agile mindset in practice

- What exactly is agile thinking?
- Typical pitfalls in agile projects.
- Agile values and principles in your project environment.
- War room, task board and other (technical) requirements in practice.
- Timeboxing and the 80:20 rule.

Agile roles

- Product Owner and Scrum Master: real tasks and responsibilities.
- How can teams really organise themselves?
- The frequently forgotten stakeholder.
- Rights matrix: Who is permitted to do what and who must inform whom, when and how?

Agile artifacts

- Understanding the customer request correctly.
- Setting up an agile project in just one day: Is it possible?
- SMARTe visualisation of project goals.
- The correct logic and efficiently prioritising the items in the product backlog.
- Developing good user stories.
- Pragmatically planning expenditure and resources.
- Iterative release planning and release burndowns.
- Appropriately applying the definitions of done and ready.

Agile events

- Is a kick-off necessary?
- Sprint planning I: How are items selected?
- Sprint planning II: How are tasks developed and estimated?
- Moderating daily scrum/stand-ups: How to manage it in 15 minutes.
- Permanent backlog refinement.
- Managing, visualising and documenting results.
- Dealing with errors and non-deliveries.
- Sprint review - without criticism, but with motivation.
- Retrospective - which processes should be examined more closely?

Tips for successful agile projects

- Dealing with deviations regarding budget, time, results.
- Dealing with major changes.

Online Learning Platform

Once you have registered, you will be able to access your online learning platform, including extra materials for consolidating what you have learned.

Your benefits

- You identify how agile methods can be applied effectively and efficiently.
- The various phases of agile projects are discussed during the training by means of simulations – with the focus on solutions for frequently occurring disruptive factors in practice.
- You identify how to productively implement the theoretical approaches to agile project management in practice.
- During the seminar you'll have the opportunity to discuss your practical situation with the trainer and receive concrete tips and solution proposals.

After attending this seminar, you will receive confirmation that you have completed 13,00 PDUs.

Methods

Multimedia-based input, project simulation, trainer presentation, discussion, case/practical examples, group work, exercises.

Who should attend

Project managers, Scrum Masters and Product Owners from all sectors, team members, managers who set up and assess agile projects.

This is an advanced training and requires fundamental knowledge of agile project management and agile methods.

Open Badges - Show what you can do digitally too.

Open Badges are recognised, digital certificates of participation. These verifiable credentials are the current standard for integration in career networks such as LinkedIn.

With them, you digitally demonstrate the competences you possess.

After successful completion, you will receive an Open Badge from us.

Instructor

Michaela Kühn

Ich arbeite an der Stelle, an der Komplexität entsteht: wo unterschiedliche Perspektiven, Erwartungen, Rollen und Denklögen aufeinandertreffen. Statt vorschnell Lösungen zu produzieren, schaffe ich zuerst Klarheit im Denken – über Ziele, Begriffe, Entscheidungsräume und Verantwortlichkeiten. Dabei nutze ich die Methode des Visualisierens und des Storytellings.

Malte Stock

Ich bringe sehr gerne meine langjährige Projekt- und Führungserfahrung aus der Praxis in meine Seminare und Workshops ein. Experten, Teams und Führungskräfte bei ihren täglichen Herausforderungen zu unterstützen, Lösungen anzubieten und gemeinsam zu erarbeiten motiviert mich sehr. Genau diese Motivation hat mich in den Beruf des Trainers, Coaches und Dozenten geführt.

Besonders ist meine Arbeit weil ich
komplexe Zusammenhänge
strukturiere, ohne sie zu vereinfachen
oder zu verkürzen, abstrakte Modelle,
Normen und Methoden in
verständliche Bilder und greifbare
Beispiele übersetze,
